| 10/3/2013 | | <p>I am building the only man made reef in the form of a peace sign in the Florida Key's!!!!</p> <p>Please check it out!!!</p> <p>http://urlm.in/sdvv</p> <p>Peter Wolfson 305-798-3898</p> | <p>I am building the only man made reef in the form of a peace sign in the Florida Key's!!!!</p> <p>Please check it out!!!</p> <p>http://urlm.in/sdvv</p> | <p>We need support through our new kickstarter project and divers.</p> <p>Planning a dive coming up in a couple of weeks for anyone how supports the project.</p> <p>Please call me</p> <p>Peter Wolfson 305-798-3898</p> | |
| 10/3/2013 | Martin | <p>The Lake Okeechobee dumps by the Corps of Engineers are killing reefs off Martin County and elsewhere by covering them with silt and nutrients. Have you addressed that problem?</p> | | E-mail | |
| 10/3/2013 | Palm Beach | <p>Sand pumping onto the Palm Beach County Beaches has almost completely covered any rock structure within 100 yards of the beach. Singer Island beach has rock piles to the north of the public beach that have been installed. They are a great fish habitat. More of the rock piles should be built to replace the rock ledges covered by the beach renourishment. Sand is pumped on the beach and within 2 years it washes offshore from 50 to 100 yards out. People want beach so the sand will not stop. More effort should be put forward to replace what is lost.</p> | | | |

| 10/11/2013 | dade | Coral damage due to novice snorkelers | | <p>Work with diving/snorkeling concessions to provide (at times more reinforcement is needed) conservation education practices and better selection of deeper sites for novice snorkelers where coral can not be touched. Post coral reef conservation practices (eg: posters) at the concessions.</p> <p>Engage and work with local Businesses that provide water sport activities. Include articles and ads conveying the importance of coral reef protection in tourism magazines. newsletter email</p> | I think this initiative is great and Im glad its being implemented! |
