

Submitted	County	Do you have any reef-related concerns or specific problems you would like to share?	Do you have any suggestions about how to improve the Our Florida Reefs Community Planning Process?	What's the best way to engage, inform, and work with your community?	Do you have any additional comments or suggestions about the Our Florida Reefs Process, the community meeting you attended, or any other aspect of the Southeast Florida Coral Reef Initiative?
9/6/2013	Saint Lucie	I do not approve of using different sand on our beaches....side comment	After having been involved in boating etc. in tropical waters since the 60's (South Florida, Bahamas, Cuba, Haiti, Virgin Islands, Honduras, Mexico,, Columbia, Grenada, Puerto Rico, Jamaica and others), the buoy tie up system that is used in the Cayman Islands seems a reasonable solution to a number of tourist problems. Without being greedy, so that most people can benefit, this system could also generate income to offset costs. Thank You, Roberta McFarlane	I heard of you recently on the radio while driving. e-mail or now that I know..me going to your site.	Could possibly engage a whole group of young people to help with various projects...and...most are tech heads...waiting to tell their friends...something.
