02/22/15	Palm Beach	Diver/Boater	breakers reef needs help	why not push for a partnership with breakers west. restoring a reef in the area where their guests snorkel would be attractive. the marketing and eco friendly aspect would be other points of interest for them.		system that was set up for reef growth of peanut island needs to be further leveraged. there is a big attraction already, to palm beach, for diving. doing the same sort of thing in other areas would be of great benefit, perhaps even transplanting rocks that are grown in peanut, to other areas, would be possible. almost making it like a "reef farm"
2/18/15	Anonymous	anonymous	would like to see reflective tape on the balls because they had hit them before in the dark
