~ Objectives ~

- Review ground rules, decision rules, and process for public comment.
- Share recent or upcoming events
- Finalize review of and response to public comments for the 59 Recommended Management Actions (RMAs) that received relatively low numbers of comments (by focus area), and vote on any recommended edits (full group.)
- Receive public comment
- Vote on future direction questions discussed at the March meeting:
  - Will the Community Working Group (CWG) hold one additional meeting in May/June?
  - Can RMAs be archived at this point in the process?
- Hear agency perspectives on the different ways that RMAs could move forward after the CWG process is complete
- Begin reviewing and incorporating feedback on the nine RMAs that received large numbers of public comments
  - Work in small groups to review and synthesize comments and to flag those needing large group discussion
  - Discuss flagged comments as a large group and identify any proposed changes
- Review the RMA prioritization done in the fall and plans to revisit
- Discuss additional future direction questions and vote as appropriate:
  - Will the CWG hold additional meetings beyond June if necessary?
  - If not everything can be finished, what does the CWG really want to be sure to get done?

*Please note that staff can assist CWG members and SEFCRI technical advisors who wish to order lunch during the meeting, but public attendees are responsible for their own lunches.
